

Enclosure-5.4

The University has experienced faculties. The total curriculum is based on new trends and policies of education & industries which are compatible to the existing syllabus of various universities. Programs are designed to match international standards of quality and Indian value based educational system. University is following modular curriculum in all disciplines with innovations of modern requirement.

University follow the interdisciplinary/multidisciplinary approach for e.g. In B.Ed. one can select two optional subjects Pedagogy out of 93 subjects. Out of which two are elective subjects for example Sociology and Philosophy. Now department of education can offer these subjects and the subjects can be taken for Ph.D. related topics. Similarly in Fine Arts we offer various Social Science topics for Ph.D. in Hotel Management, Computer Science, Engineering and Management etc. Ph.D. is based on selected topic and the topic can be interdisciplinary and multidisciplinary.

In our educational programme, University provide soft skill training programme so as student can be eligible for employment and they can enhance their capability in respective area of their interest. University conduct classes for one semester and include practical training for next semester.
