

## **Enclosure-6.1**

**The students are selected by the entrance test internally of university and through the academic record of the candidate. As we are situated in deserted rural area where the population is very less hence, the number of students comes to the university for admission is of average category. The University conducts an entrance exam under the aegis of Rajasthan Self Finance Universities Association. Most of the students in traditional courses are of residual type who don't get admission in government colleges and could not qualify any entrance test conducted by different bodies. Although we take an entrance exam of them also. In other courses which are based on different statutory councils are allotted by themselves after their own entrance exam like NCTE and State Board of Education.**
